THE EVOLUTION OF FIRE

## A New Generation of Hybrid Stoves

This unique collection of stoves is designed exclusively for the UK market and seamlessly incorporates mankind's love of fire into the modern home.

An elegant range of stoves offering a choice of heat outputs and styles, the Woolly Mammoth Collection brings the comforting glow of a real fire into your home in a modern, controllable and highly efficient way.

**A True Evolution of Fire.**

## Choose British

The Woolly Mammoth brand was conceived in the UK and designed in-house specifically for the domestic market with HETAS trained professionals here in the UK overseeing the development of every feature and aspect. Every Woolly Mammoth stove undergoes a full check before passing quality control to ensure that every model is supplied in premium condition.

## Choose Style

The clean yet timeless design of the Woolly Mammoth Collection ensures these solid fuel heating appliances are equally adept in both traditional and contemporary settings and are the perfect companion for your living space. This diverse collection of wood-burning and multi-fuel stoves feature a multitude of options including adjustable legs and hand-painted door frame colours, ensuring Woolly Mammoth Stoves offer something to suit all tastes and room spaces.

## Choose the Environment

The impact our stoves have on the environment is at the forefront of our minds when creating the Woolly Mammoth Collection and this drives our target to not simply meet expected efficiency levels but to surpass them.

Official approvals from HETAS and DEFRA\* combined with our 'A' Energy Rating are just the beginning as we strive towards ever increasing efficiency levels and reduced emissions.

\*Woolly Mammoth 5, 5 WideScreen and 7

# Choose Woolly Mammoth

Each Woolly Mammoth Stove is manufactured with precision and quality of build in mind and boasts a wealth of innovative features.

- **Rear-drawn Air Wash system**
